Election/Restrictions

1. Restriction to one of the following inventions is also required under 35 U.S.C.

121:

I. Claims 1-4, 13, 14, 17, 18, 29, 30, 31 are drawn to a print server of creating printer language for sending to a printing apparatus, classified in class 358/1.13.

II. Claims 5-12, 15, 16, 19, 20 are drawn to a client computer of accessing print information from a server classified in 709/219.

III. Claims 21-28, 32-36 are drawn to a print controller classified in 347/5.

2. Inventions I, II, III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the client computer has other utilities such as communication with a digital camera, the server computer has other utilities such as transferring print job status to a user; and the print controller has other utilities such as printing photographs in photographic format. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and III, and vice versa, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to King Y. Poon whose telephone number is 571-272-7440. The examiner can normally be reached on Mon-Fri 8:00-4:30.
